Enterprise AI Copilot - Test Company Policy

Sample document for testing the RAG pipeline

1. Company Overview

NovaTech Solutions is a fictional technology company that develops software, automation, and artificial intelligence solutions for business customers.

2. Working Hours

The standard working schedule is Monday to Friday, from 9:00 AM to 6:00 PM. Employees should inform their manager if they expect to arrive late or leave early.

3. Annual Leave

Employees may request annual leave through the company's internal leave system. Leave requests should normally be submitted at least seven days before the planned leave date.

4. Remote Work

Eligible employees may work remotely up to two days per week with manager approval. Employees working remotely are expected to remain available during normal working hours.

5. Information Security

Employees must protect company information and must not share confidential documents, passwords, API keys, or customer data with unauthorized people.

6. IT Support

For technical problems, employees should contact the IT support team through the internal help desk. The support team handles account access, device problems, software issues, and network connectivity.

7. Business Travel

Business travel must be approved by the employee's manager before bookings are made. Employees should keep receipts for approved travel expenses.

8. Example Employee Benefits

Benefit	Description
Health Support	Eligible employees receive company-supported health benefits.
Learning Budget	Employees may request funding for approved professional courses.
Transport	Approved business travel expenses may be reimbursed according to company policy.

9. Document Purpose

This fictional policy document is created specifically to test document ingestion, text extraction, chunking, retrieval, and question answering in the Enterprise AI Copilot project.
